Unemployment Inside and Out

anking 17th among 50 states and the District of Columbia, Indiana's 3.4% unemployment rate continues as one of the lowest in the nation and was nearly one percentage point lower than the nation's rate of 4.2% for June 2000.

Among states in this region, only Michigan (3.5%) and Wisconsin (3.8%) came close to Indiana, while Illinois (4.5%), Kentucky (4.0%) and Ohio (4.2%) were at or close to the U.S. rate. Differences of tenths of a percent have attracted attention during these tight labor-market times, even though they may not be statistically significant.

Rates Over Time

Between 1989 and 1999, Indiana's annual average rate of unemployment peaked at 6.6% in 1992 and slid to 3.0% for 1999. The U.S. rate hit 7.5% in 1992 and declined to 4.2% for 1999 (see Figure 1). During that same time period, the 30 Indiana counties in Metropolitan Statistical Areas (MSAs) experienced consistently low

unemployment rates, the highest combined rate being 6.2% in 1992. The lowest combined rate — 2.8% — occurred in 1999.

Those 62 Indiana counties not in an MSA had a combined high of 7.8% in 1992 and a low of 3.5% in 1999. Clearly the high and low years are the same for the state, MSA counties and non-MSA counties, but the rates differ significantly.

Within the state, Hamilton, Tipton, Hendricks, Boone, Johnson and Decatur were the six counties with June 2000 unemployment rates less than 2.0%, while 35 counties in Indiana had rates of less than 3.0%. Counties with the highest rates of unemployment were Switzerland (10.3%), Blackford (8.0%) and Perry (7.5%). A total of 41 counties' June rates were higher than the state's (see Figure 2).

Why has Switzerland County so consistently maintained the dubious rank of No. 1 in unemployment rates in Indiana this year? We contacted Carla Hansin, manager of the Indiana

Department of Workforce Development Employment Office in Vevay, and asked just that question. Hers was a straightforward answer: not enough jobs close by. Hansin went on to tell

A Closer Look at Switzerland County

us that this should change with the new casino going in seven miles outside Vevay and the opening of Besi Inc., a maker of school bus seats and safety harnesses for buses and the potential employer of 60 to 80 people. Besi took over the old U.S. Shoe/Nine West building and, based on information gleaned from a recent Vevay Town Council meeting, has a two-year lease with an option to buy – good news to this community. Hansin also noted that a planned road connecting Vevay (pop.1,482) to U.S. 50 would help considerably.

*1998 patterns of work/residence (aka commuting) were culled from the IT-40 State Income Tax form.

Commuting profiles for each county in the state are available on STATS Indiana (www.stats.indiana.edu).

City Unemployment Rates: A Study in Contrasts
Looking at the most local of local areas, the city of Gary experienced the highest rate (9.9%) of unemployment among the 32 Indiana cities with published rates. The town of Fishers, in Hamilton County, had the lowest rate (0.7%) in June.
